ABOUT PROJECT

An aviation accident is defined by the Convention on International Civil Aviation Annex 13 as an occurrence associated with the operation of an aircraft, which takes place from the time any person boards the aircraft with the intention of flight until all such persons have disembarked, and in which

- ✓ a) a person is fatally or seriously injured,
- ✓ b) the aircraft sustains significant damage or structural failure, or
- ✓ c) the aircraft goes missing or becomes completely inaccessible.

This dataset includes:

SHPVIBE

- ✔ All cargo, positioning, ferry and test flight fatal accidents.
- ✔ All military transport accidents with 10 or more fatalities.
- ✔ All commercial and military helicopter accidents with greater than 10 fatalities.
- ✔ All civil and military airship accidents involving fatalities.
- ✔ Aviation accidents involving the death of famous people.
